Known as "Lone Australian" at Had Lived Life of Mystery for Two Years.

"The Lone Australian," long the mys-Mills Hotel No. 1, at No. 160 Bleecker who jumped from the Brooklyn Bridge For two years he had lived at the hotel under the name of "A. Much," ich is believed to have been assumed, evidence of an accusing conscience.

In solving the mystery of the man fished out of the East River a greater has been uncovered.

When the suicide first appeared at the and wild-eyed. "Give me a quiet room," he requested of the clerk at the Regis-Office. "It is a good rest I want had the after a 14,000-mile journey."

That the stranger was an Australian did not come out until weeks afterward. A letter bearing a postmark of the faray British possession was dropped in the corridor by him. When it was picked up and returned by an attendant the late occupant of room No. 4 became confused and excitedly asked if the name had been noted.

"I did not have the chance." was the reply. Much looked relieved. It was thus be came to be known as "The

In the two years of his stay in the lodging house Much never spoke to another inmate of the place. He was frequently addressed, but he would glance hurriedly away, and move to a distance from the person making the in-Within the last three months his mind has been gradually breaking down. For hours at a time he would walk in his room, and the attendants noted his queer actions.

"It was with difficulty that the floor man could get him to leave his room, where he brooded," said Supt. E. L. Thomas to an Evening World reporter. 'A rule of the hotel is for the patrons to vacate their rooms from 10 A. M. until 5 P. M. each day, in order to give the chambermaids an opportunity to elean up. Much was the queerest lodger in the hotel, and after careful inquiry. I cannot get a bit of information as to his relatives or friends. The man was weighed down by some secret sorrow." Mind Seemingly Affected.

On the evening of Sunday, May 22, the Australian went away with his leather satchel, and was last seen by the attendants walking up Bleecker street in the direction of Broadway. He was making strange motions with his hands. Where he spent Sunday night is not known, and he was next seen by Fireman John Clark, a fellow-passenger upon a Brookiyn trolley car, to leap from the bridge on the New York side. His body was not recovered until yesterday, when it was identified through a key to his room at the Mills Hotel.

Much was always well provided with money. It was apparent that he stopped at cheap quarters in order to avoid former associations. His effects have not been recovered. It is believed that he sunk them in the East River before jumping from the bridge.

A special jury was empannelled a week ago to try Dobson, but upon investigation by Assistant District-Attorney Ely, District-Attorney Ely, District-Attorney Jerome decided that a conviction could not be hoped for. Lawyer Abraham Levy, Dobson's counsel, thereupon asked for Dobson's discharge, which Judge McMahon granted.

Mr. Ely said afterward that Dobson had only acted in self-defense, killing Peeples while protecting himself.

Prof. Robert Kech.

The medical world recognizes Prof. Robert Koch, of Berlin, as the greatest authority on lung diseases, as he discovered the germs that cause consumption and the treatment that destroys them. It has been his lifetime study to devise a treatment that would entirely eradicate the germs that cause such diseases as asthma, bronchitis and consumption, so that no one can contract

diseases as asitum, bronchitts and consumption, so more than the germs into the lungs. His treatment is at No. 119 West 22d st., next to Ehrich's store, where patients are treated daily at Dr. Koch's Sanitarium, where wonderful cures are made of patients in the different stages of lung trouble, which by careless neglect catarrh has extended into the lungs, causing hemorrhages and breaking down of lung tissue. The mistake of neglect until the patient is in the last stage of consumption is often made, but it should not be. Cough and losing of strength should warn one that their time is valuable, neglect is dangerous, and should at once consuit a lung specialist who is successful, like the one at 119 West 22d st., next to Ehrich's store, the original and only place where the PROF, ROBT, KOCH'S LUNG CURE is used, Free examinations are given between the hours of 10 and 7 daily, and 11-3 Sundays, 'Phone 1228—18.

for a certain and complete cure awaits you! No matter how discouraged you may be over your many failures with Mercury and Potash-no matter how severe or old the disease may be, WE CAN CURE YOU! The anti-toxin serum discovered by Dr. F. A. Sieber completely eradicates contagious Blood Poison from the system, never to return. We have used it with perfect results in our various offices, curing hundreds of sufferers, most of whom had been to Hot Springs or Mt. Clemens, or had been "dosed" with Mercury by their own physi-

cian. The reader who may be afflicted with this dreadful disease, in any of its stages, should come to us, and at once, for his only possible earthly hope and complete cure awaits him, guaranteed by

THE INJECTION TREATMENT.

We can readily understand the popular opposition which met the medical profession when they first began to administer could "see" the medicine in a teaspoon, and generally feel its drastic action in the stym-ach. But the wise doctor very well knew that half or more of the virtue of his that half or more of the virtue of his remedial agent was lost during the digeritive process. So the hypodermic needle came into use, and is now universally emplayed in all cases where it is desirable to have the remedy in its natural state reach the dissues unchanged through the circuistion. Dr. Sieber has been one of the most persistent advocates of this principle, and he attributes much of the success of his complete cure for bood poison to the fact that it is injected directly into the blood and eradicates the poison and disease therefrom. The International Serum Toxin Co., 722-723 St. James Building, Broadway and 36th Street, have cured hundreds of hitherto hopeless cases of contagious blood poison through the administration of the Sieber serum, the only human agency through which this dreadful disease can possibly be cured.

THE "BIG STORES" " FOUNDER. It is an abrupt but (when explained) a natural transition from managing the biggest department store business in the world to the establishing and running of one of the biggest medical concerns in the world. Yet this is precisely the change made about a year ago by Frank H. Cooper, Esq., founder of the "Big Stores" of Siegel Cooper Co. of Chicago and New York. In

since ever the world began. "I knew of no other way in which I could do so much good," Mr. Cooper modestly observes. The fact that a merchant of national prominence lends his name and influence to the Sieber serum treatment is a sufficient guarantee of its value, and is the reason why so many persons have come in confidence to the company's offices in New York (St. James Building, corner Broadway and 28th Street,) and all of the leading cities where branches have been established.

BLOOD POISON NOW CURABLE. We have little doubt that the statement contagious blood poison, guaranteed and backed by responsible business men, wil! be the best news to many readers in today's paper. Dr. Frahcis A. Sieber, the discoverer of the only serum that is anti-toxin to blood poison, is the head of the medical department of the International Serum Toxin Co., suite 722-23 St. James Building, Broadway and 26th Street, New York, who guarantse to cure the very worst cases of specific blood poison. The "guarantee" of a company of this character is something tangible for a prospective patient to consider, for it is given by F. H. Cooper, Esq. President, who founded the "Big Stores" of Siege, Cooper Co., New York and Chicago, and who is one of America's foremost and wealthlest merchants.
